

Movie Mashup Solution

Written by David Klionsky and Matthew Glisson

In this puzzle you had to figure out the title of each movie and index into the title with the rating.
The flavor text explained what changes could be made to titles but didn't tell you what each category was.

- A: Normal title, abridged plot
- B: Change one letter
- C: Remove one letter
- D: Combine two titles with a common word

Once you have all the titles, you get the meta clue, "Space miner's indigestion kills crew".
The answer to this clue and the puzzle is ALIEN.
